

Masturbator cup

Product Use Instructions

Specifications

Name:	Masturbator cup	Material:	ABS+TPE
Size:	325*91mm	Color:	Black, white, Blue
Maximum noise:	<60db	Power supply mode:	USB charging
Input voltage:	7.4V	Input current:	350mA
Main functions:	3-frequency rotation+5-frequency vibration +5-frequency thrustion+heating		

Packing list

Product * 1, charging line * 1, manual * 1

Notice for Use

1. Please take out the soft glue to clean the product. The host is not waterproof.
2. Please wipe the product dry with a clean cloth or towel;
3. Please place the product in a cool, dry and clean place for storage;
4. Do not use organic detergents containing alcohol, gasoline or acetone to clean the product, and keep it from direct sunlight.

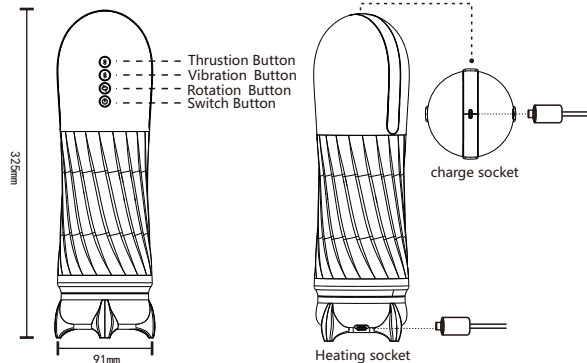

Charging Description

1. The product is charged by USB power supply and please keep the product dry while charging;
2. The charging time is about 3 hours, and it can be used for 40 minutes after charging (when using different vibration modes, the use time may be different);
3. The product is unable to be turned on when charging, as it is in safe mode. When charging is over and the charging cable is pulled out, the product will automatically exit this safe mode. Then it can be used normally;
4. In order to extend battery life and ensure the good effect of charging, we recommend charging the product before vibration strength of the device is significantly weakened.

Attention

1. This product has a built-in polymer lithium battery. The battery is not available to be disassembled by yourself. So please do not disassemble it in case of product damage.
2. It is recommended to use this product together with a lubricant;
3. Do not use excessive force when using it, please take care to avoid being injured;
4. This product is forbidden to be used by children under 18 years old.

How to Use

Operation Instructions

1. Press and hold * ① * for 1.5s to turn on/off.
2. Press * ② * to start the retraction function. There are 5 frequency cycles in total. Long press for 1.5s to close.
3. Press * ③ * to start the vibration function. There are 5 frequency cycles in total. Long press for 1.5s to close.
4. Press * ④ * to turn on the rotation function. There are 3 frequency cycles in total. Long press for 1.5s to close.
5. After the heating jack is connected to the charging line, the product starts heating, and stops heating after the temperature reaches 40 ° in 10 minutes.
6. Soft glue reset function, effective within 1 minute after shutdown:
Press ⑤ : the left side resets by 30 °, and each click resets by 30 °;
Press ⑥ : reset 30 ° on the right, and press once to reset 30 °;
Press ⑦ : push forward or backward for 5mm each time (automatically controlled by microcomputer),
So as to complete the lowest position function of soft meat.
